AN AUTO ACCIDENT

We have received a report of a rather serious auto accident which occurred last Sunday evening about 7 o'clock on the road north of Holland in which the following Fulton County citizens were the victims: Mr. Albert Spiess, his sons Vernon and Edward and wife, his daughter, Mrs. Celia Mock and her little daughter Rosemary, aged 3. Mr. Spiess was driving his car with the party named above home from Toledo, the lights on the Spiess car were not working right and Mr. Spiess was blinded by cars coming from both directions, the car was run too close to the edge of the road and turned over into an eight foot ditch with all the party under it.

Mr. Spiess was pinned down by the overturned car where he was held fast until it was lifted from him by several men who arrived on the scene, but fortunately escaped with only minor scratches and bruises about the face and head. Messrs. Vernon and Edward Spiess also escaped with a few bruises. Mrs. Edward Spiess suffered three or four broken ribs. Mrs. Mock had several ribs broken and her arms and lower limbs badly bruised, by shielding her little daughter she managed to prevent the child from receiving any injury whatever.

The plight of the party was discovered by Mr. and Mrs. Cleve Rupp who were on their way to their home in Toledo after a visit in Archbold. Help was summoned and the injured persons were taken in cars to the nearest house, a physician was summoned from Holland who attended to their injuries and they were later taken to their home and are now recovering under the care of Dr. McGuffin of Pettisville.

OHIO LIBRARY ASSOCIATION

Important legislative proposals that, if passed, will provide heavy needed improvement in Ohio library conditions, were made at the Annual Conference of Ohio librarians at Cleveland last week. One of these bills will be introduced at the 65.07 January session of the Legislature which will go far to bring Ohio up to the backward position it has held in library circles. One of these bills will permit counties to create effective county library systems such as are now in existence in twenty other states and which are giving the most economical and complete book service that has yet been devised.

PUBLIC NOTICE

The Wauseon Light Plant will close at 9:00 p. m. October 21st except Saturdays, open until 9:00 p. m. No bill collections will be made after these hours.

NOTICE AND WARNING

George H. Clark, Chairman of the Ohio Republican State Executive Committee Issues Statement Regarding Tactics that are Being Employed by Democratic Management.

We are face to face with the last three weeks of this campaign. This is a Republican year. Every indication over the nation is that Senator Harding will win by one of the largest majorities ever given a candidate for president.

In the State of Ohio there is a similar indication that the national and state tickets will be elected by an overwhelming majority.

Knowledge of these facts has grown to unmistakable proportions. In the Democratic Headquarters the facts have brought bitterness and a sense of desperation. The result is to be the foulest campaign in Ohio's history. It is to be a campaign of underhand tactics, detestable propaganda and malicious lies. Paid emissaries are now employed to go from house to house spreading vile slanders relative to the Republican candidates. From vest pockets are drawn statements which dare not be printed in the open. That they have not the slightest foundation of fact makes no difference to the Democratic management.

Intelligent men and women voters are sure, will not be influenced by charges to which those responsible for the Democratic campaign will not attach their names and accept full liability.

The Republican party does not appeal to race, nor religious, nor group prejudice. It does not ask for support by gutter tactics. It does appeal to the stalwart American of every citizen, man and woman. It believes that an aroused citizenship will rebuke on November 2 the slanders campaign into which we are now plunged by the Democratic State Committee.

RED CROSS IS SERVICE

The Fourth Red Cross Roll Call is not a drive. It is not an effort to raise any specific sum. The \$100 dues of 10,000,000 people for 1921 are payable and this Roll Call is merely the organized activity of collection.

The American Red Cross, by its Congressional Charter, is officially designated for the following purposes:

"To furnish volunteer aid to the sick and wounded in time of war, in accordance with the treaty of Geneva.

"To act in matters of volunteer relief and as a medium of communication between the American people and their Army and Navy.

"To continue and carry on a system of national and international relief in time of peace and to apply the same in mitigating the sufferings caused by pestilence, famine, fire, floods and other great national calamities and to devise and carry on measures of preventing the same."

Act of Congress, Jan. 5, 1905.

ANSWER THE RED CROSS ROLL CALL, November 11th, Armistice Day, to November 25th, Thanksgiving.

A liberal reduction on suits, overcoats and other merchandise at Samuel Rupperts. 29-1-c

USE MORE LIMESTONE

Many of the soils of Fulton County would be greatly benefited by the use of ground limestone. This is not only true of the sandy soils which are now acid, but will be true of other heavier soils.

Ground limestone should be applied regularly every four or five years if we wish to establish a permanent system of soil fertility. If we wait until the soil actually shows considerable acidity we have suffered substantial losses in decreased crop production.

Hundreds of tons of ground limestone should have been applied to the soils of Fulton County, but many factors are responsible for the small amount which has been applied.

Two of the most important factors in limiting the application of lime was the busy season and difficulty in getting the limestone at the right time.

Farmers have been instructed that the time to apply lime to get the best results was on the seed bed for corn or wheat. Either time is a very busy one and rather than delay the planting of the crops the limestone has not been applied.

Recent experiments at the Ohio Experiment Station indicate that the time to apply lime to get the best results was on the seed bed for corn or wheat. Either time is a very busy one and rather than delay the planting of the crops the limestone has not been applied.

A four year trial at the Experiment Station showed the following results: Two tons of ground limestone applied to corn ground increased the yield of corn 7 1/2 bu., oats 2 bu., clover 1450 lbs.

Applied to wheat ground the increase yield was corn 4 1/2 bu., oats 1 bu., wheat 2 bu., clover 1500 lbs.

Applied to clover sod the increase yield was corn 8 1/2 bu., oats 1 bu., wheat 3 1/2 bu., clover 850 lbs.

If limestone can be applied advantageously to clover sod it can no doubt be so applied to corn stalk ground and stubble, new seeding, in fact it could be applied nearly any time of year.

Another drawback to spreading the ground limestone is the difficulty of getting it shipped so that it can be hauled directly from the car and spread. In some places farmers are erecting cooperative storage bins which hold one or two car loads. This makes it possible when returning from town with the wagon to drive under the spout, load up with limestone and thus avoid making an extra trip.

The elimination of the two important factors mentioned above which have limited the application of ground limestone are well worth the consideration and careful attention of the farmers of Fulton County.

FARM BUREAU ACTIVITIES

Messrs. F. G. Ketter, Director of marketing of the Ohio Farm Bureau Federation and G. R. Lewis of Findlay, President of the Hancock County Farm Bureau are organizing for the Ohio Sugar Beet Growers Co-operative Association in the fourteen counties of Northwestern Ohio. No fee for membership is required the numbers agreeing to pay such price per ton for sales as necessary.

COUNCIL AUTHORIZES PURCHASE

Council Passes Ordinance to Purchase Seventeen Acres on Jay Funk Farm as Site for Reservoir for New Water Works Plant.

Council met in regular session last Monday evening, N. C. Wright presented a request for street light on west end of Superior Street which was referred to the Light Committee.

Dora Dye asked council to place tile in ditch at north of her home on North Fulton Street, agreeing to cover the tile and fill the ditch. If council will grant his request. The matter was referred to the Sewer Committee.

Council ordered a survey made of lands recently purchased by the village on west side of Cedar Street and sidewalk grade established.

Rev. Kring, pastor of the Evangelical Church asked permission to cut down a tree on West Chestnut Street in front of Evangelical property. Council suggested that Rev. Kring be given permission to trim the tree rather than cut it down and referred the matter to the sidewalk committee.

Mr. Loren McLaughlin presented request for sewer on Monroe Street that could be utilized to drain cellars on that street. The request was referred to the Sewer Committee. The big event of the council meeting Monday night was the passage of an ordinance authorizing the purchase of 17.3 acres of land from the farm of Jay Funk complying with the request of the Board of Trustees of Public Affairs and opening the way for the Water Works Board to proceed with the construction of a water supply plant according to plans which they have adopted and which have the approval of the State Board of Health.

This action on the part of the council which was unanimous, is proceeding to the construction of a Water Plant and places the responsibility in this matter squarely upon the Water Board. We believe that this action of the Council will meet with the hearty approval of a big majority of the citizens of Wauseon and certainly with all those who hope for the development of the village along industrial lines. The assurance of an adequate supply of water to meet the needs of the village to at least twice its present population removes a bar to growth and development that has long stood in the way of the village.

The differences that have delayed procedure in construction have been based on the character or quality of the water as well as the adequacy of the supply. The Bean Creek project undoubtedly presented the opportunity of obtaining both the very best quality of surface water and unlimited supply. The same was true so far as the supply was concerned in regard to the Maumee River project and the Turkey Foot reservoir offered a larger drainage area than that available at the present site of the Water Works plant, but each of these three propositions called for an expenditure of money equal to from two to three times the amount available. The plans proposed by the Water Board which according to all engineers who have investigated will furnish an adequate supply of water for a town of 7000 population and has the approval of the State Board of Health, by utilizing the "Big Ditch" drainage area, thus keeping the water at all times cool and "live", and the treatment and filtration which the water will receive before passing into the service system will make it available for all purposes.

THE WOMAN VOTER

"Women care for homes more than for wealth; for health more than for wealth; for real fathers and mothers and children," etc. a Scripps Co. propagandist paper.

And they especially detest a system under which a WEALTHY NEWSPAPER OWNER'S SON is exempted from war service while THEIR sons and husbands have to FIGHT for their country.

BAPTIST CHURCH

A. M. Dixon, Pastor

Sunday School and morning worship service begins at 9:30 and ends at 11:30.

R. Y. P. U. 6:00 p. m.

Evening service 7:00 p. m., subject "Dr. Jekyll and Mr. Hyde", here we have the conflict of the ages.

Prayer and praise service, Thursday evening at 7:00.

The ladies of the Christian Church will hold a chicken pie supper in the church basement, Thursday evening Oct. 28th. Price 35c. Everybody cordially invited.

We're going to reduce the price of good clothes

For the People of This Community

There is a widespread demand on the part of the public for lower prices; we're making our prices conform to that idea.

Suits and O'Coats will be reduced from 10% to 30%

All furnishings including underwear, dress shirts, hats, caps, sweaters, etc.

10% to 20%

All shoes in mens and boys will be reduced from 10% to 20%

Full size canvas glove with knit wrist \$1.65 doz.

We're going to give you prices that are in accord with the trend of the times; and we're going to do it on the best merchandise to be had. We'll have to take a reduction in profit, but we'll make a gain in

Carhartt Oall's \$3.00 Best Grade

the friends we'll make for this store. Reduction taken from original ticket at time of sale. Strictly cash.

Work shirts, good quality and full size \$1.25

Your satisfaction is guaranteed; value, fit, style, wear; money back any time you say so.

Lee Union Alls Best Quality \$4.50

HARRISON & FUNKHOUSER BROS.
